- TP: [link](#)

## Outline

1. Hierarchical models
2. *k*-means
3. Gaussian mixtures

OUR ANALYSIS SHOWS THAT THERE ARE  
THREE KINDS OF PEOPLE IN THE WORLD:  
THOSE WHO USE K-MEANS CLUSTERING  
WITH K=3, AND TWO OTHER TYPES WHOSE  
QUALITATIVE INTERPRETATION IS UNCLEAR.

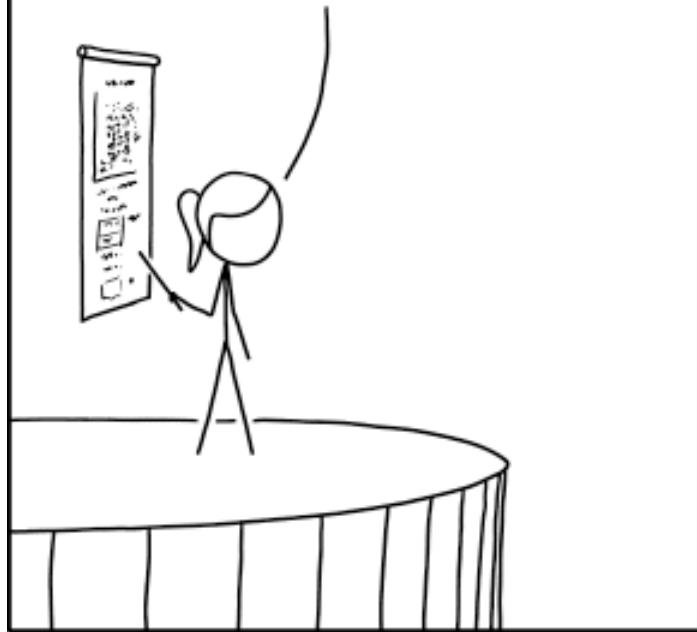

Figure 1:  $k$ -means ([xkcd:2731](#)).
